Advantage Europe

## WebAdvantage

Online platform

WebAdvantage
Online platform

Monitor and set your MegaTron controllers online with our user-friendly and graphical online platform!
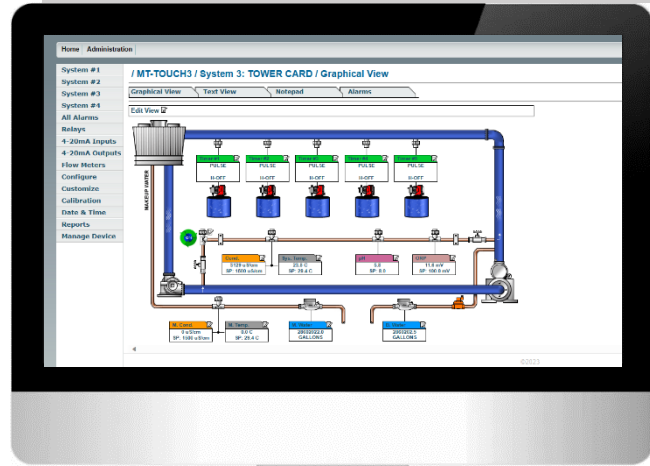

WebAdvantage works for you by automatically emailing your custom designed reports to whom you want when you want them. Reports can include probe, water meter, relay and notepad history along with many other items. Adapt the graphical view to your system, for a realistic and actual overview of all inputs and outputs. Change your parameters at distance.

The exclusive "summary" view combines important information from all of your connected MegaTrons in a single view when you log in to WebAdvantage. Email alerts from the server ensure that users are notified of any and all problems, including alarm conditions, loss of communications connection or loss of power.
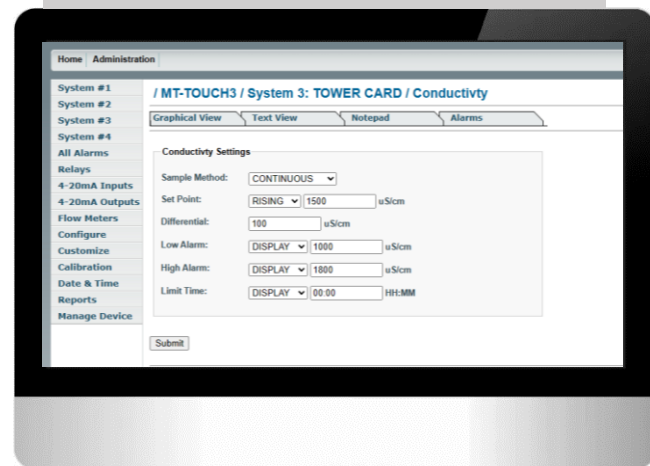

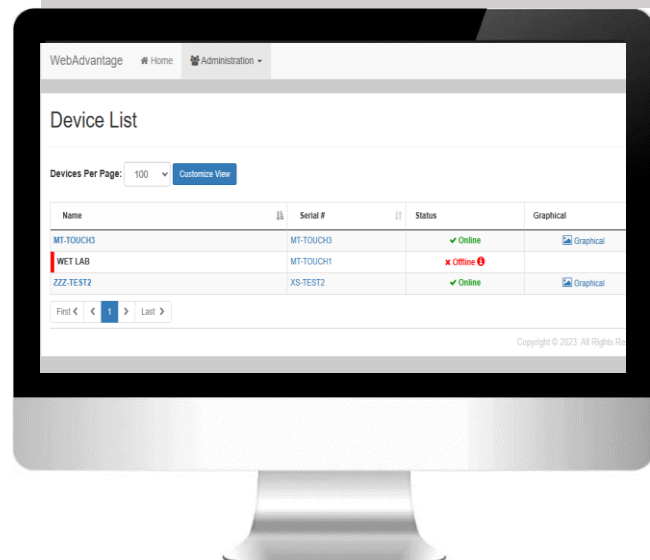

WebAdvantage
